1. General

a. The Terms and Conditions specified herein apply to the local exchange services and facilities furnished by the Telephone Company hereinafter referred to as the Company. If the customers fail to observe these Terms and Conditions, the Company has the option to discontinue service after due notice of such failure.

b. In the event of a conflict between these General Terms and Conditions and any conditions contained in the Local Exchange Catalog, the rates, terms and conditions contained in the specific catalog section shall prevail.

c. This Catalog cancels and supersedes all other Catalogs of the Company issued and effective prior to the effective dates shown on individual sheets of this Catalog.

B. OBLIGATION AND LIABILITY OF TELEPHONE COMPANY

1. Availability of Facilities

a. The Company's obligation to furnish local exchange service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for such facilities.

2. Allowance for Failure of Service

a. The Company does not guarantee uninterrupted working of its lines or equipment. In case service is interrupted other than by the negligence or willful act of the customer, an adjustment will be made in the amount of the charges for that portion of the service rendered inoperable. Any adjustment shall apply only if the interruption continues beyond twenty-four (24) hours after first noted by the Company. Adjustment will be made in the form of a bill credit. No other liability shall in any case attach to the Company.

3. Adjustment of Charges

a. In the event of an adjustment of charges for overbilling by the Company, a refund or credit will be made of the full amount of excess charges for a period not to exceed five years. When the period or amount for which overbilling cannot be fixed from available records, the maximum refund or credit will not exceed an estimated amount of such billing.

5. Transmitting Messages
 - a. The Company does not transmit messages, but offers the use of its facilities, where available, for communications between parties, subject to the terms, regulations and conditions specified in this Catalog.
6. Use of Connecting Company Lines

7. Defacement of Property
 - a. The Company shall exercise care in all work done on a customer's property. No liability shall attach to the Company by reason of any defacement or damage to the customers' property resulting from the existence of the Company's instruments, apparatus and associated wiring on such property, or by the installation or removal thereof, unless such defacement or damage is the result of the negligence of the Company, or its employees.
8. Customer Premises Equipment

The Company's liability is limited to that provided in the General Terms and Conditions of this Catalog.

8. Customer Premises Equipment (Continued)

c. The customer indemnifies and saves the Company harmless against claims for libel, slander, or infringement of patents arising from combining such equipment with the facilities of the Company.

d. The Company shall not be responsible to the customer if changes in criteria in this Catalog or changes in any of the facilities or operations or procedures of the Company render any customer premises equipment obsolete, or require modification or alteration of such equipment, or otherwise affect its use or performance. The Company reserves the right to change the standards of its equipment as the requirements of the telephone business may direct.

9. Emergency 911 Service

a. This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies. The Company is not responsible for any losses, claims, demands, suits or any liability whatsoever, whether suffered, made instituted or asserted by the Customer or by any other party or person for any personal injury or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused by mistakes, omissions, interruptions, delays, errors or other defects in the provision of service, of installation, operation, failure to operate, maintenance, removal, presence, condition, or use of any equipment or facilities furnishing this service.

b. Neither is the Company responsible for any infringement, nor invasion of the right of privacy of any person or persons, caused or claimed to have been caused directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, or use of emergency 911 service features and the equipment associated therewith, or by any services furnished by the Company, including, but not limited to the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing emergency 911 service, and which arise out of the negligence or other wrongful act of the Company, the customer, its users, agencies or municipalities, or employees or agents of any one of them.

c. When a customer with a nonpublished telephone number, as defined herein, places a call to the emergency 911 services, the Company will release the name and address of the calling party, where such information can be determined, to the appropriate local governmental authority responsible for emergency 911 services upon request of such governmental authority. By subscribing to service under this Catalog, the customer acknowledges and agrees with the release of information as described above.

If a customer is unable to travel to the Company's business office or other designated location to return the equipment, the customer may request pick-up. Provision of pick-up service is solely at the Company's option and the Company's refusal or failure to provide pick-up service will not excuse the customer's obligation to return equipment. If the Company agrees to provide pick-up service, pick-up will occur during the business week and only during regular business hours. There may be a fee for pick-up, which customer will be informed of when pick-up service is requested, and which will be payable at time of pick-up. Any change in rates, terms or conditions shall act as a modification of the contract to that extent, without further notice.

b. Minimum contract periods and termination of service are covered elsewhere in Part II.

2. Telephone Numbers

a. The customer has no proprietary right in the telephone number or any right to continuance of service from any specific central office, and the Company may assign or change the telephone number, the central office designation, or both, as is necessary in the conduct of its business. Except for non-payment of yellow page advertising, when customers are assigned a new number within the exchange, the former working number intercept shall provide the new number to a calling party for not less than 60 days or until the issuance of a new directory.

3. Deposits and Collection Practices
 - a. The fact that a deposit has been made in no way relieves the applicant or customer from complying with the Company's regulations as to advance payments and the prompt payment of bills; nor constitutes a waiver or modification of the regular practices of the Company providing for the discontinuance of service for non-payment of sums due the Company for services rendered. The Company may discontinue service to any customer failing to pay current bills regardless of the fact that such customer has made a deposit with the Company to secure payment of such bills, or has furnished the Company with a guarantee in writing for such bills.
4. Interest to be Paid on Deposits

- 2) Conditions that require unusual methods of plant construction, installation or maintenance.
- 3) The customer's location requires the use of costly private right-of-way.
- 4) The establishment of services which may be of a speculative or temporary nature.

b. Title to all construction, as specified below, provided wholly or partly as a customer's expense is vested in the Company.

c. "Cost" is labor and materials included loaded overheads and may include a contribution to cover the cost of doing business not explicitly associated with direct cost.

2. Special Type of Construction

a. If a special type of construction is desired by a customer, (e.g., when underground service is desired in places where aerial construction would normally be used) or if unusual requirements of a customer make the cost of an installation higher than it would be if the usual type of construction were used, the customer is required to pay the difference in cost between the special type of construction and the average cost of the usual type of construction.

H. MINIMUM CONTRACT PERIODS

b. Despite the prior written notice provisions as contained in these terms and conditions, disconnection may take place prior to the expiration of the notice period if the Telephone Company determines, from verifiable data, that usage during the notice period is so abnormally high that a risk of irrevocable revenue loss is created.

c. Only one written notice will be provided to the customer if multiple violations occur.

d. The notice of pending disconnection required by these terms and conditions shall be a written notice setting forth all reasons for the notice, and the final date by which the account is to be settled or specific action taken. The notice shall be considered rendered to the customer when deposited in the U.S. mail with postage prepaid. If delivery is by other than U.S. mail, the notice shall be considered rendered when delivered to the last known address of the person responsible for payment for the service. The final date shall be not less than five days after the notice is rendered, or in the case of deposits twelve days. The notice will include a toll-free or collect number where a customer can obtain additional information.

I. DISCONNECTION OR REFUSAL OF SERVICE (Continued)

4. Emergency Medical Conditions

Disconnection of a residential customer shall be postponed 30 days if an existing medical emergency of the customer, a member of the customer's family, or any permanent resident of the premises where service is rendered would present an especial danger to the health of any permanent resident of the premises. Indicators of an especial danger to health include, but are not limited to: age; infirmity; mental incapacitation; serious illness; physical disability, including blindness and limited mobility; and any other factual circumstance which may indicate a severe or hazardous health situation.
